## Table of Contents

### January-June 2017 Volume 17 Issue 1

- 1 The influence of the framework thickness on surface strain of the 3-unit zirconia resin-bonded fixed dental prostheses under the functional loading**  
Kyoshi Matsukawa, Reina Nemoto, Kosuke Nozaki, Mariko Kubo, Tasuku Inagaki, Keiichi Yoshida, and Hiroyuki Miura  
(published online, January 15, 2017)
- 9 Characterization and purification of a bacteriocin-like substance produced by *Lactobacillus crispatus* LBS 17-11 isolated from an oral cavity of human subject**  
Gaku Akimaru, Susumu Imai, Kaoru Sogabe, Ayako Okada, Tomohiko Terai, Takekazu Okumura, Nobuhiro Hanada, and Hiroshi Kawahara  
(published online, January 31, 2017)
- 15 Stress distribution in luting agents with different post and core systems**  
Siyang Luo, Daizo Okada, Mohammed Bakhit, Kyoshi Matsukawa, Chiharu Shin, Reiko Ogura, and Hiroyuki Miura  
(published online, January 31, 2017)
- 23 The efficacy of plasma-treated water as a root canal irrigant**  
Kaname Yamamoto, Tomoko Ohshima, Katsuhisa Kitano, Satoshi Ikawa, Hiromitsu Yamazaki, Nobuko Maeda, and Noriyasu Hosoya  
(published online, February 28, 2017)

### July-December 2017 Volume 17 Issue 2

- 31 Effect of thickness of zirconia framework on fracture strength and fracture mode of ceria-stabilized tetragonal zirconia polycrystals/alumina ceramic restoration on resin tooth abutment**  
Vibul Paisankobrit, Satoshi Omori, Rie Fujita, Yoji Ueda, Reina Nemoto, and Hiroyuki Miura  
(published online, July 31, 2017)
- 41 The stress distribution within dentin upon the use of different restoration materials**  
Mohammed Bakhit, Daizo Okada, Siyang Luo, Chiharu Shin, Reiko Ogura, Wataru Komada, and Hiroyuki Miura  
(published online, August 31, 2017)
- 49 The Effect of radiotherapy on resin composite bond strength and adaptation to dentin**  
Takako Yoshikawa, Alireza Sadr, and Junji Tagami  
(published online, October 31, 2017)
